The screenshot shows the WordPress dashboard with the following interface elements:

- Left Sidebar:** Contains links for "All Pages", "Pages", "Comments", "Appearance", and "Plugins".
- Top Bar:** Shows user profile, navigation icons (back, forward, search), and a URL bar with "localhost:8003/wp-admin/post-new.php?post_ty...".
- Post Creation Area:** A modal window for creating a new post titled "About US". It includes fields for "Visibility" (set to "Public"), "Publish" buttons ("Save draft", "Page", "Block", "Publish", "Immediately"), and a "Summary" section.
- Page Preview:** A preview of the "About Us" page with the content "this is about us page". It includes "Copy", "Add New Page", and "View Page" buttons.
- Page List:** A sidebar showing a list of pages including "About Us", "Privacy Policy", "Sample Page", and "About Us" (Draft). It has filters for "All", "Published", and "Draft".
- Themes Section:** Shows the "Themes" section with a count of 3, an "Add New Theme" button, and a preview of the "Begnas" theme.
- Preview Area:** Displays the "Begnas" theme live preview with the heading "Your Gateway to Stunning Websites!" and a "Details & Preview" button.
- Post Preview:** Displays a post titled "My first post" with the content "this is my first post" and a "Read more" button.
- Right Sidebar:** Shows a list of users (admin, admin, admin) with their last modified dates and times.

localhost:8001/index.php

localhost:8001/index.php

A screenshot of a web browser window titled "Document". The address bar shows "localhost:8001/index.html?". The main content area displays the following:

XMLHttpRequest to send data

Welcome Rayyan Balami !

The browser has three tabs open:

- localhost:8003/wp-admin/ (Dashboard)
- localhost:8003/wp-admin/ (Log In)
- localhost:8001/index.php (Static content)

The dashboard page shows the "Welcome to WordPress!" message and navigation links for Home, Updates, Posts, Media, Pages, Comments, Appearance, Plugins, and Users.

The log in page shows fields for Username or Email Address (admin), Password, Remember Me, and Log In.

The static content page displays the text "Name: Rayyan Hero".

The screenshot shows the 'Setup Configuration' step of the WordPress installation process. It displays a list of languages on the left and a configuration form on the right.

Left Panel (Languages):

- English (United States) (selected)
- Afrikaans
- አማርኛ
- Aragonés
- العربية
- العربية المغربية
- ଓଡ଼ିଆ
- گوئنچى ئۇرپاچان
- Azerbaiyan dili
- Беларуская мова
- Български
- বাংলা
- ଓଡ଼ିଆ
- Bosanski
- Català
- Cebuano
- Čeština
- Cymraeg
- Dansk
- Deutsch (Schweiz, Du)
- Deutsch (Österreich)
- Deutsch
- Deutsch (Sie)
- Deutsch (Schweiz)
- Dolnoserbscina

Right Panel (Database Configuration):

Below you should enter your database connection details. If you are not sure about these, contact your host.

Database Name: rayyan
 The name of the database you want to use with WordPress.

Username: root
 Your database username.

Password:
 Your database password. [Show](#)

Database Host: localhost
 You should be able to get this info from your web host, if localhost does not work.

Table Prefix: wp_
 If you want to run multiple WordPress installations in a single database, change this.

Submit

The screenshot shows the 'Installation' step of the WordPress setup process.

Welcome:

Welcome to the famous five-minute WordPress installation process! Just fill in the information below and you'll be on your way to using the most extendable and powerful personal publishing platform in the world.

Information needed:

Please provide the following information. Do not worry, you can always change these settings later.

Site Title: rayyan website

Username: admin
 Usernames can have only alphanumeric characters, spaces, underscores, hyphens, periods, and the @ symbol.

Password: Sy!JfUttj7z8wnb (Strong) [Hide](#)

Your Email: visionrayyan60517@gmail.com
 Double-check your email address before continuing.

Search engine visibility: Discourage search engines from indexing this site
 It is up to search engines to honor this request.

Install WordPress

Run the installation

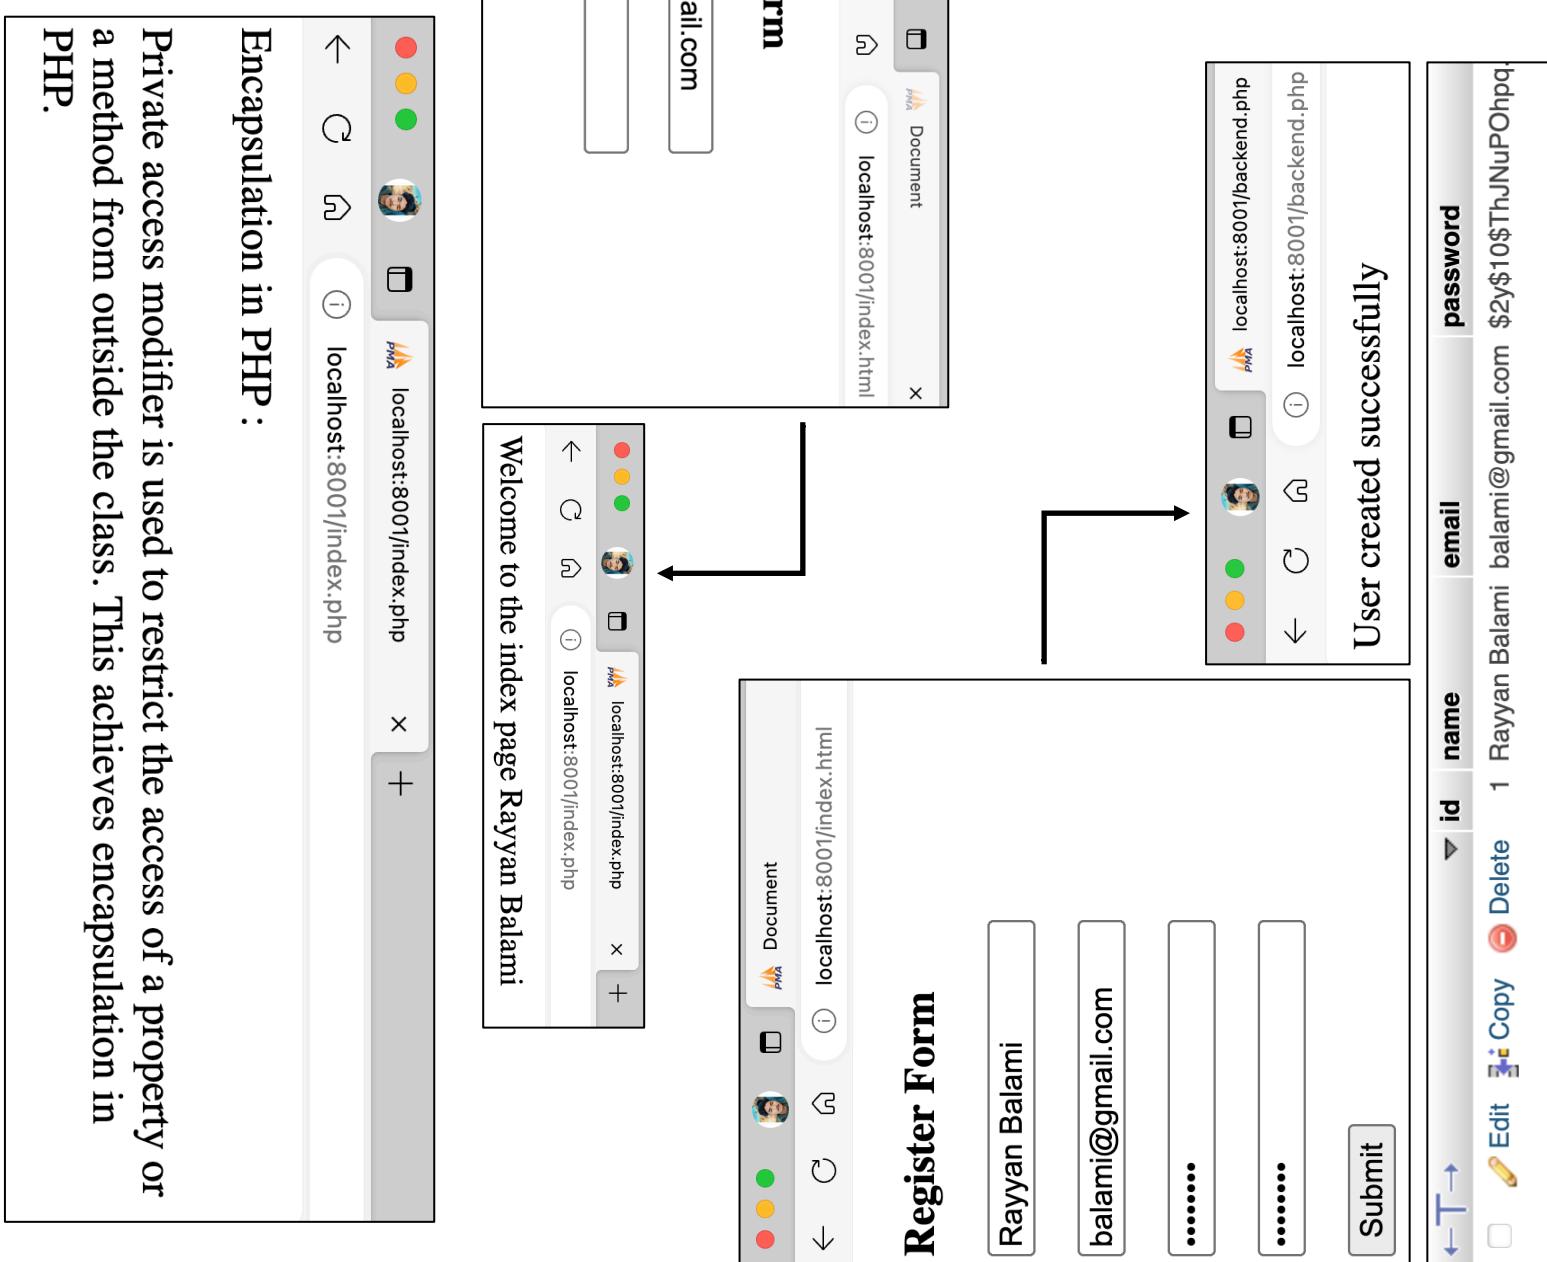

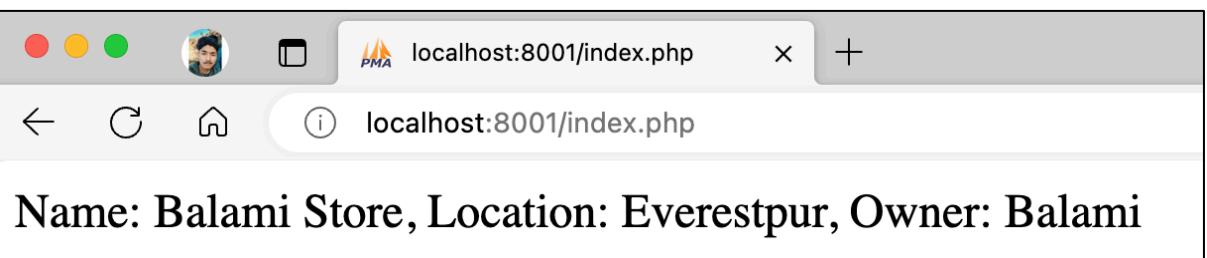

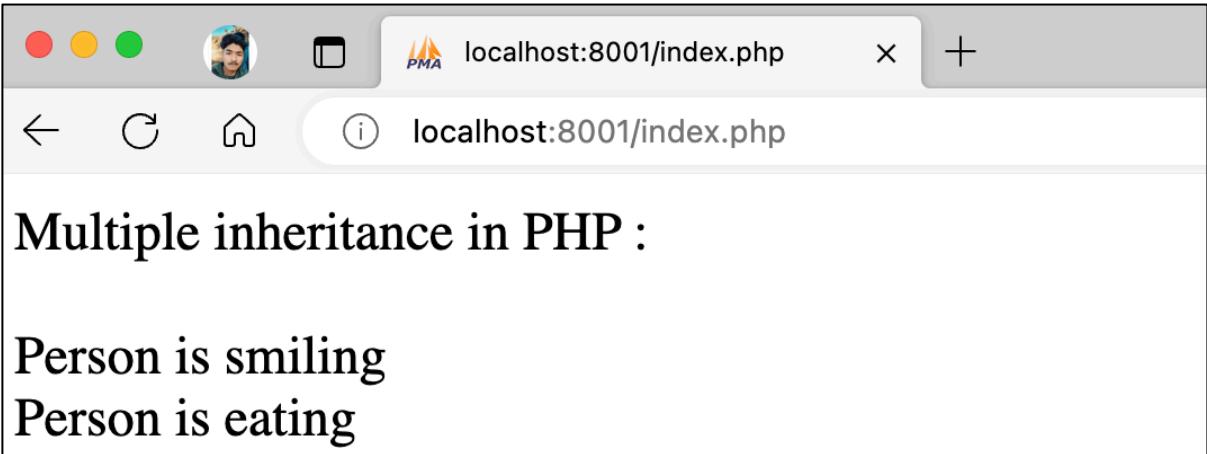

The screenshot shows the 'Success!' step of the WordPress setup process.

Welcome!

WordPress has been installed. Thank you, and enjoy!

The diagram illustrates a file upload process involving three browser windows:

- Client Browser 1:** Shows a "File Upload Form" with a "Choose File" button set to "pp.jpeg" and an "Upload" button.
- Server Response:** A downward arrow points from the client to a second browser window titled "localhost:8001/backend.php". It displays the message "File uploaded successfully".
- Client Browser 2:** Shows a table with one row of data:

	id	name	type	size	path
<input type="checkbox"/>	1	pp.jpeg	jpeg	89190	uploads/pp.jpeg

 Below the table are buttons for "Edit", "Copy", and "Delete".
- Client Browser 3:** Shows an error message: "Error on line 16 in /Users/rayyanbalami/Documents/RayyanCodes/scripting/index.php: This is an custom exception". It also states "Finally block is always executed".
- Client Browser 4:** Shows a green box labeled "target Element".
- Client Browser 5:** Shows a "Show Height and Width" button.
- Client Browser 6:** Shows the text "Height: 482, Width: 928".
- Client Browser 7:** Shows a "Document" tab with a "Post Request" and "Get Request" button. The "Post Request" button is highlighted.
- Client Browser 8:** Shows the message "Welcome Rayyan Balami!".
- Client Browser 9:** Shows a text input field with "Rayyan Balami" and a "Post Request" button.
- Client Browser 10:** Shows the message "This is a GET request".
- Client Browser 11:** Shows a text input field with "Enter your name" and a "Post Request" button.
- Client Browser 12:** Shows a "Document" tab with a "Post Request" and "Get Request" button. The "Get Request" button is highlighted.
